EXPERIENCE

CeSIUM

DIRECTOR OF THE MARKETING DEPARTMENT

Braga, Portugal

Nov. 2021 - Currently

- **CeSIUM - Centro de Estudantes de Engenharia Informática.**
- I started my journey in CeSIUM in 2021 has a collaborator of the Marketing Department and over the years became a member of the organization. Firstly has a co-director of the department and in the last year has director
- As Director of Marketing, I had multiple responsibilities. From managing a team of about 15 people, to managing CeSIUM's social media.
- Managed to develop a lot of proficiency with tools like Adobe Photoshop, Adobe Illustrator, Adobe After Effects and Figma. I also worked on a couple projects in **CeSIUM's organization** by either helping in the development of a design or coding in HTML, CSS/TailwindCSS or NextJS.
- Part of my job in CeSIUM is making part of different events organization teams, such as the **Semana da Engenharia Informática (SEI)**, **Jornadas da Informática (JOIN)** and **Hackathon Bugsbyte**

CoderDojo Braga

MENTOR & CO-CHAMPION

Braga, Portugal

Mar. 2022 - Currently

- **CoderDojo Braga** is an initiative started by **CeSIUM**. It teaches kids from 7 to 17 years old the basics to programming and how to develop projects.
- I started my journey in CoderDojo Braga has a Mentor and volunteer in 2022. Joined the core team in 2022 aswell and became Co-Champion in 2023.
- As a Co-Champion, my main responsibilites reside in guiding other mentors, helping out with logistics and public relations.
- I also organized DojoCon Braga. A small event that had the objective of reaching more people about CoderDojo Braga, aswell as talk about how computing and programming should be inserted into education.

PROJECTS

LearningChain

HEXATABLE GROUP

Apr. 2024

- With a couple of friends, developed a small prototype of **LearningChain**. A Web3 platform just like Udemy or Skillshare, where anyone can publish their own course and emit a certification using Web3 technologies such as NFTs.
- This project was developed in the Hackathon Bugbyte '23
- We used TypeScript, Tailwind, Prisma and Solidity

Program Design by Calculation

UNIVERSITY OF MINHO

Nov. 2023 - Jan. 2023

- For a college project me and a couple of colleagues solved a couple of programming problems using concepts of Program Design by Calculation, such as catamorphisms, anamorphisms, functors, etc.
- For this project we used Haskell
